24th August 2023

Dear Lisa,

Building and Land Guarantees Ltd are one of the UK's largest independent brokers specialising in building guarantees.

Our expertise and access to insurance market covers Structural Defects Insurance for new developments and renovations as well as Insurance Backed Guarantee policies for component parts of buildings.

For any of these insurance products our insurers are able to cover your **R-Wall Insulating Concrete Formwork (ICF) System**.

Terms for these policies will be issued subject to the installation being completed in line with the manufacturer guidelines and BBA Certification and by suitably experienced operatives for a financially viable contractor.

I look forward to receiving Latent Defects Insurance proposals for the installation of your products in the future.

Yours sincerely

Owen Wright
Development Underwriter
